

AUTHORS' AGREEMENT AND COMMITMENT

This letter of commitment has been completed for Journal of Industrial Engineering International

Manuscript title: Corresponding Author:

1. The Statement of Research Originality

The authors confirm that:

- 1.1. This article has not been previously published anywhere (in national or international journals, conferences, books etc.) and is not currently under review at another journal. It will not be submitted to any journal until the final is announced.
- 1.2. This article is the output of the authors' own research work and all sources used in this research have been properly cited in accordance with standard citing style and their details are provided in the references.

2. Contributors' approval (Confirmation of contribution, responsibility, authorship order and agreement to designate a corresponding author)

The authors confirm that:

- 2.1. All authors have been directly involved in the research and writing process of the article.
- 2.2. All authors equally accept responsibility for all content in the article.
- 2.3. All authors agree to designate Ms. / Mr. as the corresponding author to follow-up the status of the article and have the correspondence with the journal.
- 4.2. All authors agree on the authorship order at the beginning of the article as follows.

AUTHORS' AGREEMENT AND COMMITMENT

3. Confirming the adherence to publication Ethics

The authors agree to observe the publishing ethics of scientific articles in accordance with the guidelines of the journal and if the journal (even after publication) realize that authors have violated the principles of publication ethics, will have right to retract the article and will carry out an investigation about this issue.

4. Journal Publication Agreement (Copyright)

As *Journal of Industrial Engineering International* is an open access journal, the authors are requested to declare their agreement with the publication rules of the journal and assign the right to the readers of the journal to use their articles provided that they properly cite them.

5. Declaration of the conflict of interest

Authors declare that there is no conflict of interest in their research and financial or nonfinancial personal interests of an author or authors have not affected the process of conducting the research or its results.
