About Journal

Transactions on Fuzzy Sets and Systems (TFSS) is an open access international scholarly journal. TFSS publishes new applied and pure articles related to fuzzy sets and systems as the semiannual journal and there is no charge for publishing an article in TFSS. All articles will be peer-reviewed before publication. Manuscripts submitted to TFSS must be original and unpublished and not currently being considered for publication elsewhere.

The articles will be deposited immediately into the online repository, after the completion of the review processes. TFSS aims linking the ideas and techniques of fuzzy sets and systems with other disciplines to provide an international forum for refereed original research works in the theory and applications in all fields related to fuzzy science. Transactions on Fuzzy Sets and Systems (TFSS) is a semiannual international academic journal founded in 2022.

TFSS is an open access and free of charge and it follows the COPE publication ethics, also it follows the CC BY creative commons copyright license. TFSS aims to publish high-quality original articles that make a significant contribution to the research areas of both theoretical and applied mathematics in the field of fuzzy and all papers will be peer-reviewed before publication.

Manuscripts submitted to the TFSS must be original and unpublished work and not currently being considered for publication elsewhere. TFSS aims to reflect the latest developments in fuzzy sets and systems and promote international academic exchanges. TFSS publishes 2 issues each year.

Aims and Scopes

TFSS aim is to present the development and new applications of fuzzy sets and systems to increase knowledge and help to publish the results of studies in the field of fuzzy logic, intelligent systems and other related topics. The scope of the journal includes fuzzy theory and its applications in every branch of science and technology. Also, TFSS publishes papers that use fuzzy in other fields, such as computer science and mathematics.

Instructions to Authors

The language of the journal is English. All accepted papers should also be prepared in LaTeX style and should be typed according to the style given in the journal homepage: <https://sanad.iau.ir/Journal/tfss>. Access to articles from this site is free: TFSS allows the author(s) to hold the copyright without restrictions.

We recommend that all authors review the "Authors Guide" on the TFSS's website.

Submission of Manuscripts

All papers should be prepared in LaTeX and the pdf file of the paper should be sent to the editorial office only through the address: tfss.submit@gmail.com. Manuscripts under consideration for the journal should not be published or submitted for publication elsewhere. TFSS doesn't have any submission and article processing charges.

We kindly recommend to all authors especially young ones to review publication ethics. There are many good sources for reminding publication ethics e.g., visit COPE.

Reviewers

Peer review and reviewers are at the heart of the academic publishing process. We would like to express our deepest gratitude for volunteering your time and expertise as a reviewer. Providing a voluntary service, such as peer review, under challenging circumstances is truly a dedication to your community and the advancement of research in your field. It is an honor for us to acknowledge your commitment by saying "thank you". On behalf of all our journal editorial members, we are indebted to the time you voluntarily dedicate to supporting our journal.

Cooperation with TFSS

Qualified specialists in various fields of Fuzzy Science issues who are willing to cooperate with the TFSS Journal as peer reviewers are welcomed and invited to send their CV along with their field(s) of interest to the Journal email address: tfssiauba@gmail.com.

(Vol.3, No.2, November 2024)

Fahim Uddin; Muhammad Saeed; Khaleel Ahmad; Umar Ishtiaq; Salvatore Sessa	
Fixed Point Theorems in Orthogonal Intuitionistic Fuzzy b-metric Spaces with an Application to Fredholm Integral Equation	1
Zahra Behdani; Majid Darehmiraki	
Fuzzy Logistic Regression Analysis Using the Least Squares Method	23
Muhammed Raji; Arvind Kumar Rajpoot; Laxmi Rathour; Lakshmi Narayan Mishra; Vishnu Narayan Mishra	
Nonlinear Contraction Mappings in b-metric Space and Related Fixed Point Results with Application	37
Musa Adeku Ibrahim; Muhammed Raji; Kamilu Rauf	
Fuzzy Metric Spaces and Corresponding Fixed Point Theorems for Fuzzy Type Contraction	51
Mohd Hasan	
Novel Generalisation of Some Fixed Point Results Using a New Type of Simulation Function	66
Muhammed Raji; Laxmi Rathour; Lakshmi Narayan Mishra; Vishnu Narayan Mishra	
Fuzzy Cone Metric Spaces and Fixed Point Theorems for Fuzzy Type Contraction	82
Reza Chaharpashlou; Ehsan Lotfali Ghasab	
Some Result on Fuzzy Integration	100
Mijanur Rahaman Seikh; Arnab Mukherjee	
Fermatean Fuzzy CRADIS Approach Based on Triangular Divergence for Selecting Online Shopping Platform	108
Xiaobin Guo; Xiangyang Fan; Hangru Lin	
Approximate Solution of Complex LR Fuzzy Linear Matrix Equation	128
Alfredo Cuzzocrea; Enzo Mumolo; Islam Belmerabet; Abderraouf Hafsaoui	
A Stochastic-Process Methodology for Detecting Anomalies at Runtime in Embedded Systems	142
Zohreh Nazari; Elham Zangiabadi	
Logical Entropy of Partitions for Interval-Valued Intuitionistic Fuzzy Sets	172
Xinyi Duan; Hangru Lin; Xiaobin Guo	
A Method for Finding LR Fuzzy Eigenvectors of Real Symmetric Matrix	186
