About Journal

Transactions on Fuzzy Sets and Systems (TFSS) is an open access international scholarly journal. TFSS publishes new applied and pure articles related to fuzzy sets and systems as the semiannual journal and there is no charge for publishing an article in TFSS. All articles will be peer-reviewed before publication. Manuscripts submitted to TFSS must be original and unpublished and not currently being considered for publication elsewhere.

The articles will be deposited immediately into the online repository, after the completion of the review processes. TFSS aims linking the ideas and techniques of fuzzy sets and systems with other disciplines to provide an international forum for refereed original research works in the theory and applications in all fields related to fuzzy science. Transactions on Fuzzy Sets and Systems (TFSS) is a semiannual international academic journal founded in 2022.

TFSS is an open access and free of charge and it follows the COPE publication ethics, also it follows the CC BY creative commons copyright license. TFSS aims to publish high-quality original articles that make a significant contribution to the research areas of both theoretical and applied mathematics in the field of fuzzy and all papers will be peer-reviewed before publication.

Manuscripts submitted to the TFSS must be original and unpublished work and not currently being considered for publication elsewhere. TFSS aims to reflect the latest developments in fuzzy sets and systems and promote international academic exchanges. TFSS publishes 2 issues each year.

Aims and Scopes

TFSS aim is to present the development and new applications of fuzzy sets and systems to increase knowledge and help to publish the results of studies in the field of fuzzy logic, intelligent systems and other related topics. The scope of the journal includes fuzzy theory and its applications in every branch of science and technology. Also, TFSS publishes papers that use fuzzy in other fields, such as computer science and mathematics.

Instructions to Authors

The language of the journal is English. All accepted papers should also be prepared in LaTeX style and should be typed according to the style given in the journal homepage: <https://tfss.journals.iau.ir/>. Access to articles from this site is free: TFSS allows the author(s) to hold the copyright without restrictions.

We recommend that all authors review the "Guide to Authors" on the TFSS's website (<https://tfss.journals.iau.ir/journal/authors.note>).

Submission of Manuscripts

All papers should be prepared in LaTeX and the pdf file of the paper should be sent to the editorial office only through the electronic submission via "<https://tfss.journals.iau.ir/>". Manuscripts under consideration for the journal should not be published or submitted for publication elsewhere. TFSS doesn't have any submission and article processing charges.

We kindly recommend to all authors especially young ones to review publication ethics. There are many good sources for reminding publication ethics e.g., visit COPE.

Reviewers

Peer review and reviewers are at the heart of the academic publishing process. We would like to express our deepest gratitude for volunteering your time and expertise as a reviewer. Providing a voluntary service, such as peer review, under challenging circumstances is truly a dedication to your community and the advancement of research in your field. It is an honor for us to acknowledge your commitment by saying "thank you". On behalf of all our journal editorial members, we are indebted to the time you voluntarily dedicate to supporting our journal.

Cooperation with TFSS

Qualified specialists in various fields of Fuzzy Science issues who are willing to cooperate with the TFSS Journal as peer reviewers are welcomed and invited to send their CV along with their field(s) of interest to the Journal email address: tfssiauba@gmail.com.

Transactions on Fuzzy Sets and Systems

(Vol.2, No.2, November 2023)

John N. Mordeson; Sunil Mathew; Sujithra Puzhikunnath	
Sustainable Development Goals and Homelessness	1
George A Anastassiou	
Fuzzy Ordinary and Fractional General Sigmoid Function Activated Neural Network Approximation	15
Sanjoy Biswas; Samir Dey	
Intuitionistic Hesitant Fuzzy Algorithm for Multi-Objective Structural Model Using Various Membership Functions	39
Marco Elio Tabacchi; Settimo Termini; Enric Trillas	
On the Inferential Zigzag and Its Activation Towards Clarifying What It Is Commonsense Reasoning	63
Juan M. Cornejo; Hanamantagouda P. Sankappanavar	
Gautama and Almost Gautama Algebras and their associated logics	77
Tayebe Lal Shateri	
Intuitionistic Fuzzy Modular Spaces	113
Gunther Jäger	
Completeness for Saturated L-Quasi-Uniform Limit Spaces	127
Fernand Kuiebove Pefireko	
Lattices of (Generalized) Fuzzy Ideals in Double Boolean Algebras	137
Alfredo Cuzzocrea; Enzo Mumolo; Islam Belmerabet; Abderraouf Hafsaoui	
An Artificial Intelligence Framework for Supporting Coarse-Grained Workload Classification in Complex Virtual Environments	155
Giacomo Lenzi	
On The Spectrum of Countable MV-algebras	184
Dhanalakshmi Teekaraman; Sendhilkumar Selvaraju; Mahalakshmi Guruvayur Suryanarayanan	
Provenance Based Trust Boosted Recommender System Using Boosted Vector Similarity Measure	194
Jaydip Bhattacharya	
Similarity Measure: An Intuitionistic Fuzzy Rough Set Approach	219
