About Journal

Transactions on Fuzzy Sets and Systems (TFSS) is an open access international scholarly journal. TFSS publishes new applied and pure articles related to fuzzy sets and systems as the two-quarterly journal and there is no charge for publishing an article in TFSS. All articles will be peer-review before publication. Manuscripts submitted to TFSS must be original and unpublished and not currently being considered for publication elsewhere.

The articles will be deposited immediately into the online repository, after the completion of the review processes. TFSS aims linking the ideas and techniques of fuzzy sets and systems with other disciplines to provide an international forum for refereed original research works in the theory and applications in all fields related to fuzzy science. Transactions on Fuzzy Sets and Systems (TFSS) is a two-quarterly international academic journal founded in 2022.

TFSS is an open access and free of charge and it follows the COPE publication ethics, also it follows the CC BY creative commons copyright license. TFSS aims to publish high-quality original articles that make a significant contribution to the research areas of both theoretical and applied mathematics in the field of fuzzy and all papers will be peer-review before publication.

Manuscripts submitted to the TFSS must be original and unpublished work and not currently being considered for publication elsewhere. TFSS aims to reflect the latest developments in fuzzy sets and systems and promote international academic exchanges. TFSS publishes 2 issues each year.

Aims and Scopes

TFSS aim is to present the development and new applications of fuzzy sets and systems to increase knowledge and help to publish the results of studies in the field of fuzzy logic, intelligent systems and other related topics. The scope of the journal includes fuzzy theory and its applications in every branch of science and technology. Also, TFSS publishes papers that use fuzzy in other fields, such as computer science and mathematics.

Instructions to Authors

The language of the journal is English. All accepted papers should also be prepared in LaTeX style and should be typed according to the style given in the journal homepage: <https://tfss.journals.iau.ir/>. Access to articles from this site is free: TFSS allows the author(s) to hold the copyright without restrictions.

We recommend that all authors review the "Guide to Authors" on the TFSS's website (<https://tfss.journals.iau.ir/journal/authors.note>).

Submission of Manuscripts

All papers should be prepared in LaTeX and the pdf file of the paper should be sent to the editorial office only through the electronic submission via "<https://tfss.journals.iau.ir/>". Manuscripts under consideration for the journal should not be published or submitted for publication elsewhere. TFSS doesn't have any submission and article processing charges.

We kindly recommend to all authors especially young ones to review publication ethics. There are many good sources for reminding publication ethics e.g., visit COPE.

Reviewers

Peer review and reviewers are at the heart of the academic publishing process. We would like to express our deepest gratitude for volunteering your time and expertise as a reviewer. Providing a voluntary service, such as peer review, under challenging circumstances is truly a dedication to your community and the advancement of research in your field. It is an honor for us to acknowledge your commitment by saying "thank you". On behalf of all our journal editorial members, we are indebted to the time you voluntarily dedicate to supporting our journal.

Cooperation with TFSS

Qualified specialists in various fields of Fuzzy Science issues who are willing to cooperate with the TFSS Journal as peer reviewers are welcomed and invited to send their CV along with their field(s) of interest to the Journal email address: tfssiauba@gmail.com.

Transactions on Fuzzy Sets and Systems

(Vol.1, No.2, November 2022)

Manuel Ubeda-Flores

A note on the maximum difference between Schweizer and Wolff's σ and the absolute value of Spearman's ρ 1

Fu-Gui Shi

Novel characterizations of LM -fuzzy open operators 6

Tzung-Pei Hong; Chun-Hao Chen; Yan-Kang Li; Min-Thai Wu

Using Fuzzy C-means to Discover Concept-drift Patterns for Membership Functions 21

Benard Okelo; Allan Onyango

Characterization of Topological Fuzzy Sets in Hausdorff Spaces 32

Y. B. Jun

Lukasiewicz anti fuzzy set and its application in BE -algebras 37

Michael Gr. Voskoglou

Managing the uncertainty: from probability to fuzziness, neutrosophy and soft sets 46

Antonio Di Nola; Revaz Grigolia

Forensic Dynamic Lukasiewicz Logic 59

Nan Jiang; Wei Li; Fei Li; Juntao Wang

Markov Characteristics for IFSP and IIFSP 72

Mazdak Khodadadi-Karimvand; Sara Taherifar

Safety Risk Assessment; Using Fuzzy Failure Mode and Effect Analysis and Fault Tree Analysis 90

Antonio Diego Silva Farias; Valdileis da Silva Costa; Luiz Ranyer A. Lopes; Regivan Hugo Nunes Santiago; Benjamin Bedregal

On Generalized Mixture Functions 99

Arsham Borumand Saeid; Marapureddy Murali Krishna Rao; Rajendra Kumar Kona; Noorbhasha Rafi

Fuzzy (Soft) Quasi-Interior Ideals of Semirings 129

Lavinia Corina Ciungu

The category of L -algebras 142
